

2016 PDT BIKE CAMP

Learn to ride with us!

Children will participate in group activities to promote social skills as well as develop biking basics. All children will be assessed for a properly fitting helmet. Additionally, bicycle recommendations and accommodations will be made based on the particular needs of your child. Children will participate in daily balance, coordination, strength and biking activities to develop the foundations needed to ride a two-wheeled bike in a fun and engaging environment.

TO SIGN UP: Please call Lori at 910-483-8331.

Visit our website and follow us on Facebook for research and resources.
